Work experience

Outlier / *Backend code reviewer and evaluator* **Jul' 24 – Dec' 24**
- Developed and trained backend code-generation models to derive data-driven insights
- Enhanced server-side algorithms to improve scalability and response times

Projects

Artisan's Market Place / *EJS, NodeJS, MongoDB Atlas, JavaScript, Bootstrap* | *Github* **Feb' 24 – Apr' 24**
- A marketplace platform for artisans to sell handmade products and users to purchase them
- Developed both frontend and backend using EJS, Express.js, NodeJS, MongoDB, and Socket.io for real-time interactions
- Implemented user authentication and secure payment system using QR codes.
- Used MongoDB for dynamic product storage and Socket.io for real-time chat between buyers and artisans

Gandalf's Books / *MERN Stack, Responsive Web Design* | *Github* **Sept' 2 3**
- An e-commerce platform for buying and reviewing books with seamless user experience
- Built a responsive bookstore website with About, Book Details, Book List, Ratings, Cart, and Checkout pages
- Used MongoDB for dynamic data storage and Express.js for backend API development
- Integrated ReactJS for an interactive frontend and Node.js for efficient server-side handling

Fitness Freaks / *HTML, CSS, JavaScript* | *Github* **Dec' 22 – Dec' 22**
- An introductory website for an app promoting healthy living through workout programs and user testimonials
- Integrated video tutorials with a modern and engaging UI to enhance user experience
- Attracted 1000+ users, demonstrating strong user interest and engagement
- Designed and implemented Header, Hero, Cards, Testimonial, and Footer sections for visually appealing layout
- Ensured responsive design using media queries for seamless viewing across all devices

Certificates

HTML CSS and JavaScript for Web developers **May' 24**
Coursera — Certificate Link

Server-side JavaScript with Node.js **Apr' 24**
Coursera — Certificate Link

Building Web Applications in PHP **Dec' 24**
Coursera — Certificate Link

Skills

Languages HTML, CSS, JavaScript, React, MERN, Bootstrap, EJS

Technologies/Frameworks: React JS, Angular, Laravel, Node JS, Git, GitHub

Soft Skills: Time Management, Leadership, Problem Solving, Collaboration, Critical Thinking, Emotional Intelligence (EQ)

Achievements

- Secured third rank in the hackathon named Binary Blitz organized by Coding Ninjas for full stack development Apr' 24
- One among Dean's top 10% students at the university Since Aug' 24

Education

Lovely Professional University Punjab **2022 – 2026**
Computer Science and Engineering — CGPA: 8.22 *Phagwara, Punjab*

R.S. Convent Sainik School & Hostel **2019– 2021**
12th with Science — Percentage: 86.7% *Varanasi, Uttar Pradesh*

R.S. Convent Sainik School & Hostel **2017– 2019**
10th with PCM — Percentage: 93.4% *Varanasi, Uttar Pradesh*
